

Highlights:

- Flexible structure for system integration & connectivity
- Wide variation of compatible modules available
- Stores 6 units of CASY modules on front & rear
- Table / desk mounting ears
- 120 mm usable depth
- Pre-threaded mounting profile for easy assembly
- Aluminum extruded construction with steel side ears
- Structured and scratch resistant black powder coating

The CASY003 is a table / desk mountable chassis which can be fitted with 6 modules from the CASY range. The flexible and modular structure ensures maximum versatility, allowing the system to be adapted to project specific requirements. Possibilities range from audio, video and data interconnection to power distribution, control panels, power supplies and many more. The aluminum top and bottom construction features pre-threaded hole inserts allowing module installation with a maximum of 6 units on both front and rear side. Modules can be fixed inside the unit using the included M3 screws, while the side ears allow the unit to be mounted both on and under any table or desk. The side ears are constructed out of cold-rolled steel with internal pillars for chassis grounding. The overall construction is finished in a black (RAL9004) structured and scratch resistant powder coating.

Product Features:

Dimensions		267 x 93.1 x 120 mm (W x H x D)
Weight		0.963 kg
Construction		Alu extrusion with steel side ears
Module	Units	6 x front side & 6 x rear side
	Assembly	Pre-threaded M3 screw holes
Mounting		Table / desk mounting ears
Finish		Structured powder coating
Colours		Black (RAL9004)
