

Highlights:

- In-wall / furniture integration for 19" equipment
- Stores up to 18 units of 19" Equipment
- HexaSlide™ extending equipment bay
- Retracted and extended position locking
- Cable management rear supports
- Can carry a max load of 60 kg
- Punched square holes for use with snap-in cage nuts
- Ships as assembly package (2 cartons)

The GPR418 is a professional and solid constructed slide-out rack for 19" equipment compliant to ANSI/EIA RS-310D, DIN41491 and IEC60297 standards. It offers a flush mount solution for installation up to 18 units of equipment. The HexaSlide™ extending equipment bay combined with cable management rear supports allows rack integration into walls or furniture, while keeping the rear side of the equipment accessible for maintenance and servicing. Position locking in extended position with rotation angles for 45° and 90° allows easy fitting for the equipment, while locking in retracted position offers optimal security and stability for permanent installation. The construction is made of 3.0 mm thick steel profiles and finished in a black (RAL9004) powder coating with fine structure and printed unit measurement indicators.

Product Features:

Dimensions	503 x 878 x 489 mm (W x H x D)
Unit height	18 HE
Max. usable depth	425 mm
Max. load	60 kg
Colours	Black (RAL9004)
Weight	38.34 kg
