

Highlights:

- Stores up to 9 units of 19" Equipment
- Loading capacity of 50 Kg
- Integrated ventilation grid on top
- Cable entry on top and bottom (closable)
- Removable sides for easy installing & cabling
- Tempered glass door with keylock
- Front in depth adjustable 19" profiles (max 370 mm)
- Punched square holes for use with snap-in cage nuts

The EPR409 is an economical wall mountable 19" rack compliant to ANSI/EIA RS-310D, DIN41491, IEC 60297 standards. The construction is made of a 1.5 mm thick steel frame with 1.0 mm thick plates and is finished with a black (RAL9004) fine structured powder coating. It stores up to 9 units of 19" equipment, comes fully assembled and can easily be mounted on the wall. The 19" mounting profile with punched square holes for use with snap-in cage nuts in combination with the printed unit measurement indicators ensure easy fitting of the equipment. The tempered glass front door is reversible and secured with a key lock which keeps the equipment accessible for authorized persons only. Other present features are removable sides and in depth adjustable 19" profiles allowing easy and flexible cabling & installation.

Product Features:

Unit height	9 HE
Max. usable depth	370 mm
Max. load	50 kg
Dimensions	540 x 483 x 444 mm (W x H x D)
Weight	15.600 kg
Colours	Black (RAL9004)
