

# XENO6

Full range speaker 6"

## Highlights:

---

- Zinc alloy mounting bracket included
- 1" Dome tweeter
- 6" low frequency loudspeaker
- Vertical and horizontal mounting (rotatable logo)
- Terminal block connection

The XENO series is a loudspeaker range specifically designed for fixed audio installations in modern environments, offering two different sizes of contemporary and elegant designed products. What makes them so unique is their full range audio design, allowing them to be used without additional bass cabinet. The XENO6 is the 6" version, featuring a 1" dome tweeter and a 6" Mid / Low frequency driver, ensuring a high-fidelity sound. This wooden cabinet is fitted with a slim and elegant front grill. This makes the loudspeaker suitable for different kinds of environments where the audio system has to create the right atmosphere both aesthetically and musically. This ranges from design interiors in residential applications to contemporary retail stores and restaurants where a clear background sound is desired. But the XENO6 also shines in clubs and pubs where the sound goes up after the sun goes down. It delivers a powerful full range of sound with an RMS rating of 80 Watt and a maximum of 160 Watt. The advanced Integrated protection circuit avoids tweeter damaging when overload occurs. The included mounting bracket makes it possible to mount the loudspeaker in both horizontal and vertical position, making it suitable for every application. The connections can be made on the rear side of the loudspeaker with an Euro Terminal block connector. Ships with 2mm safety cable with a PVC jacket. All Xeno series speakers are available in black (/B) or white (/W).

## Applications:

---

- Residential
- Retail
- Clubs, bars, restaurants

## Impedance:

---

System specifications:

Speaker type		2-way
Max. Power		160 W
RMS Power		80 W
Impedance		8 Ω
Sensitivity (1W/1m)		88 dB
Sound Pressure (Max. W/1m)		110 dB
Frequency	Response (± 3 dB)	65 Hz - 18 kHz
	Range (-10 dB)	55 Hz - 20 kHz
Crossover	Frequency	2.5 kHz
	Type	Passive built-in
Dispersion	Horizontal	120°
	Vertical	120°
Connectors		4-pin Euro Terminal Block (Pitch - 5.08 mm)
Drivers	HF	1"
	MF	6"
	LF	6"

Product Features:

Dimensions		210 x 345 x 220 mm (W x H x D)
Weight		5.600 kg
Construction		Medium Density Fibreboard with structured coating
Front finish		Steel grill
Mounting & handling		2-way Revolving mounting bracket
Colours		Black (RAL9004) (XENO6/B)
		White (RAL9003) (XENO6/W)

Variants:

- XENO6/B - Black version
- XENO6/W - White version
