Ra 2000ProfileHB

540W Touring high-flux LED moving profile
ORDER CODE: **RA2000PROFILEHB**

The **Ra** 2000ProfileHB is the high-flux variant of the **Ra** 2000Profile designed for touring applications, offering the same footprint and feature set, but engineered around an LED source, which scores 40% higher intensity with lower colour rendering. Powerful, compact and fully equipped with both framing shutters and an animation wheel, all whilst delivering a superior brightness, the **Ra** 2000ProfileHB is an indispensable tool for any show. The 6.300 K LED engine has been custom-engineered to make the Ra 2000ProfileHB hit a 18'900 lumen output, and the on-board CRI enhancement filter still allows the possibility to obtain a CRI > 83. The **Ra** 2000ProfileHB CMY system delivers beautiful pastels, stunning saturated colours and powerful primaries. One colour wheel provides split colours, and linear CTO allows the **Ra** 2000ProfileHB to blend in with traditional sources. This unit is packed with powerful features like a gobo wheel, adjustable framing shutters, an animation wheel, iris, prism and dual linear frost. The highly efficient optical system delivers a 1:6 zoom from 8° to 50°, and crisp focus to perfectly merge multi-layer effects. The **Ra** 2000ProfileHB is the embodiment of solid-state LED technology.
